

## Titer Test instead of **OVER** Vaccinating

### Veterinarians should never REvaccinate without a TITER.

Dose by weight: Vaccine dosages are linear by weight. All pets should **NOT** get the same dose.

2 pound dog- 0.04 cc's

5 pound dog - 0.1 cc's

8 pound dog - 0.16 cc's

10 pound dog - 0.2 cc's

15 pound dog - 0.3cc's

20 pound dog- 0.4 cc's

25 pound dog- 0.5 cc's

30 pound dog-0.6 cc's

40 pound dog- 0.8 cc's

50 pound dog- 1.0 cc's

All dogs 50 pounds and up get 1.0 cc's

**They can contact Kansas State Diagnostics Lab to set up an account @ (785) 532-4483.**

Pricing through **KSDL** Kansas State Diagnostics Lab (additional office fees may be applied by your vet):

<http://www.ksvdl.org/rabies-laboratory/core-vaccine-titer-screen-info.html>

FAVN<sup>1</sup> Titer: \$90

RFFIT<sup>2</sup>: \$69 for endpoint titer OR \$46 for RVNA<sup>3</sup> potency value

Titer Tests are also available for core vaccines: Parvovirus, Distemper Virus, Adenovirus Virus.

COST: \$22.5 for ALL three titers (additional \$33 for RABIES titer with this package)

Pricing through **HEMOPET** (additional office fees may be applied by your vet):

<http://www.hemopet.org/hemolife-diagnostics/titer-testing.html>

FAVN<sup>1</sup>: \$120

RFFIT<sup>2</sup>: \$98

Distemper & Parvo Titer: \$52

***VACCINE TITERS ARE NECESSARY. BLINDLY REVACCINATING OUR PETS IS NOT THE ANSWER.***

**Over vaccinating has been shown to cause: cancer, tumors at injection sight, behavioral changes, auto immune disorders, allergies, epilepsy, anaphylactic shock, and neurological disorders.**

---

<sup>1</sup> FAVN: Fluorescent Antibody Virus Neutralization (for traveling to rabies free countries)

<sup>2</sup> RFFIT: Rapid Fluorescent Foci Inhibition Test (not for travel. proving immunity within the given range)

<sup>3</sup> RVNA: Rabies Virus Neutralizing Antibodies

<http://www.protectthepets.com/> The movement started by vet John Robb to change the vaccine protocol. Send him your protected titer results and he will issue a certificate of immunity for your pet stating that they are protected and no longer need to be vaccinated.

#### **Flea/Tick/Heartworm care:**

Traditional flea/tick/heartworm products are TOXIC. They are **pesticides** that create toxicity in our pets which causes numerous health problems.

**SERESTO** collars are a safer alternative to the ingestible/liquid topical treatments being used these days. They give 8 months of protection.

**SAFE** and **NATURAL** flea and tick products:
